

Data Solutions Developer

About WATC

As the State's central financial services provider, Western Australian Treasury Corporation (WATC) cares about the financial health of Western Australia's government sector. We partner with government entities to achieve sound financial outcomes and provide access to a comprehensive range of corporate finance, debt and investment, risk management and foreign exchange products and advisory services. We also provide our investors with secure and sustainable opportunities.

You can find out more about the organisation including our purpose, history and key activities by visiting the [About Us](#) tab on the WATC website.

The Opportunity

We are seeking a Data Solutions Developer with a strong focus on data engineering, analytics, and reporting to support our core business systems and our move toward more centralised, data-driven insights.

This role is well-suited to someone with experience as a Data Warehouse Analyst, Analytics Engineer, or BI Developer, who enjoys working across the full data lifecycle - from ingestion and transformation through to semantic modelling and visualisation.

You will work closely with business and technology stakeholders to design and maintain data solutions across the treasury management system, enterprise data platforms, and analytics tooling, primarily within the Microsoft ecosystem and utilising Power Platform tools where appropriate.

Key activities include:

- Designing, developing and maintaining queries and data extracts within the treasury management system to support operational reporting and downstream analytics.
- Building and maintaining ETL and data transformation processes across enterprise data sources.
- Modelling and structuring data to support warehouse-style analytical reporting.
- Develop and maintain Power BI datasets, semantic models, and dashboards that support operational and strategic decision making.
- Working with platforms such as Microsoft Fabric, SQL, SharePoint, Dynamics, and other business systems as data sources.
- Collaborating with stakeholders to translate business requirements into effective data and analytics solutions.
- Contributing to CI/CD, environments, and deployment practices across Dev / Test / Production.
- Applying Power Platform tools where appropriate to support analytics, integrations or business processes.

About You

Our ideal candidate is a data-focused technologist who enjoys turning complex data into clear, reliable insights, and brings:

- Experience in designing and supporting data warehouses, analytical data models, or enterprise reporting solutions.
- Hands-on experience with ETL / data transformation processes.
- Strong capability in Power BI, including data modelling and performance considerations.

- Experience working within the Microsoft data ecosystem (e.g. SQL, Fabric, Azure based data services).
- An analytical mindset with the ability to break down complex business problems into structured data solutions.
- Exposure to Power Platform (Power Apps, Power Pages, Dataverse) is desirable, particularly where it complements data and analytics solutions.
- Experience working across multiple environments and an understanding of ALM / DevOps concepts.
- The ability to communicate clearly with both technical and non-technical stakeholders.

WATC Values

WATC values shape our behaviours and define how we relate to each other, our clients and our community:

Integrity – We are open, honest and accountable; we adhere to the highest professional and ethical standards. We honour our promises.

Partnership – We work collaboratively with our stakeholders and colleagues towards achieving successful outcomes.

Adaptability – We challenge ourselves to think creatively and to continuously improve.

Achievement – We are engaged and focused on delivering valued outcomes for Western Australia.

Leadership – We use our knowledge and experience to contribute to the long-term benefit of Western Australia.

Employee Benefits

WATC offer a range of benefits beyond remuneration that include:

- **Flexible work arrangements:**
 - Excellent work / life balance
 - Working from home options and flexible start and finish times
 - Compressed work schedules and part time work opportunities.
- **Health and wellbeing focus:**
 - Calendar of a range of wellbeing initiatives
 - Two wellbeing days annually
 - Discounted health insurance.
- **Generous personal leave:**
 - 12.5 days personal leave per year
 - Up to 12 weeks paid parental leave (on top of government paid parental leave scheme)
 - Access to purchase additional leave.
- **Diverse, inclusive and supportive work environment:**
 - Strong organisational focus on diversity and inclusion
 - A range of staff initiatives to drive First Nations awareness and support women in finance
 - A reward and recognition program.
- **Professional development opportunities:**
 - Training courses
 - Professional memberships
 - Structured learning opportunities.
- **Newly refurbished offices:**

- Sit-stand desks and personal lockers
- Free gym access and fitness classes in the building
- Excellent end of trip facilities.
